

Changing Demographics in Dallas County

Dr. Timothy M. Bray

The Institute for
Urban Policy Research
at The University of Texas at Dallas

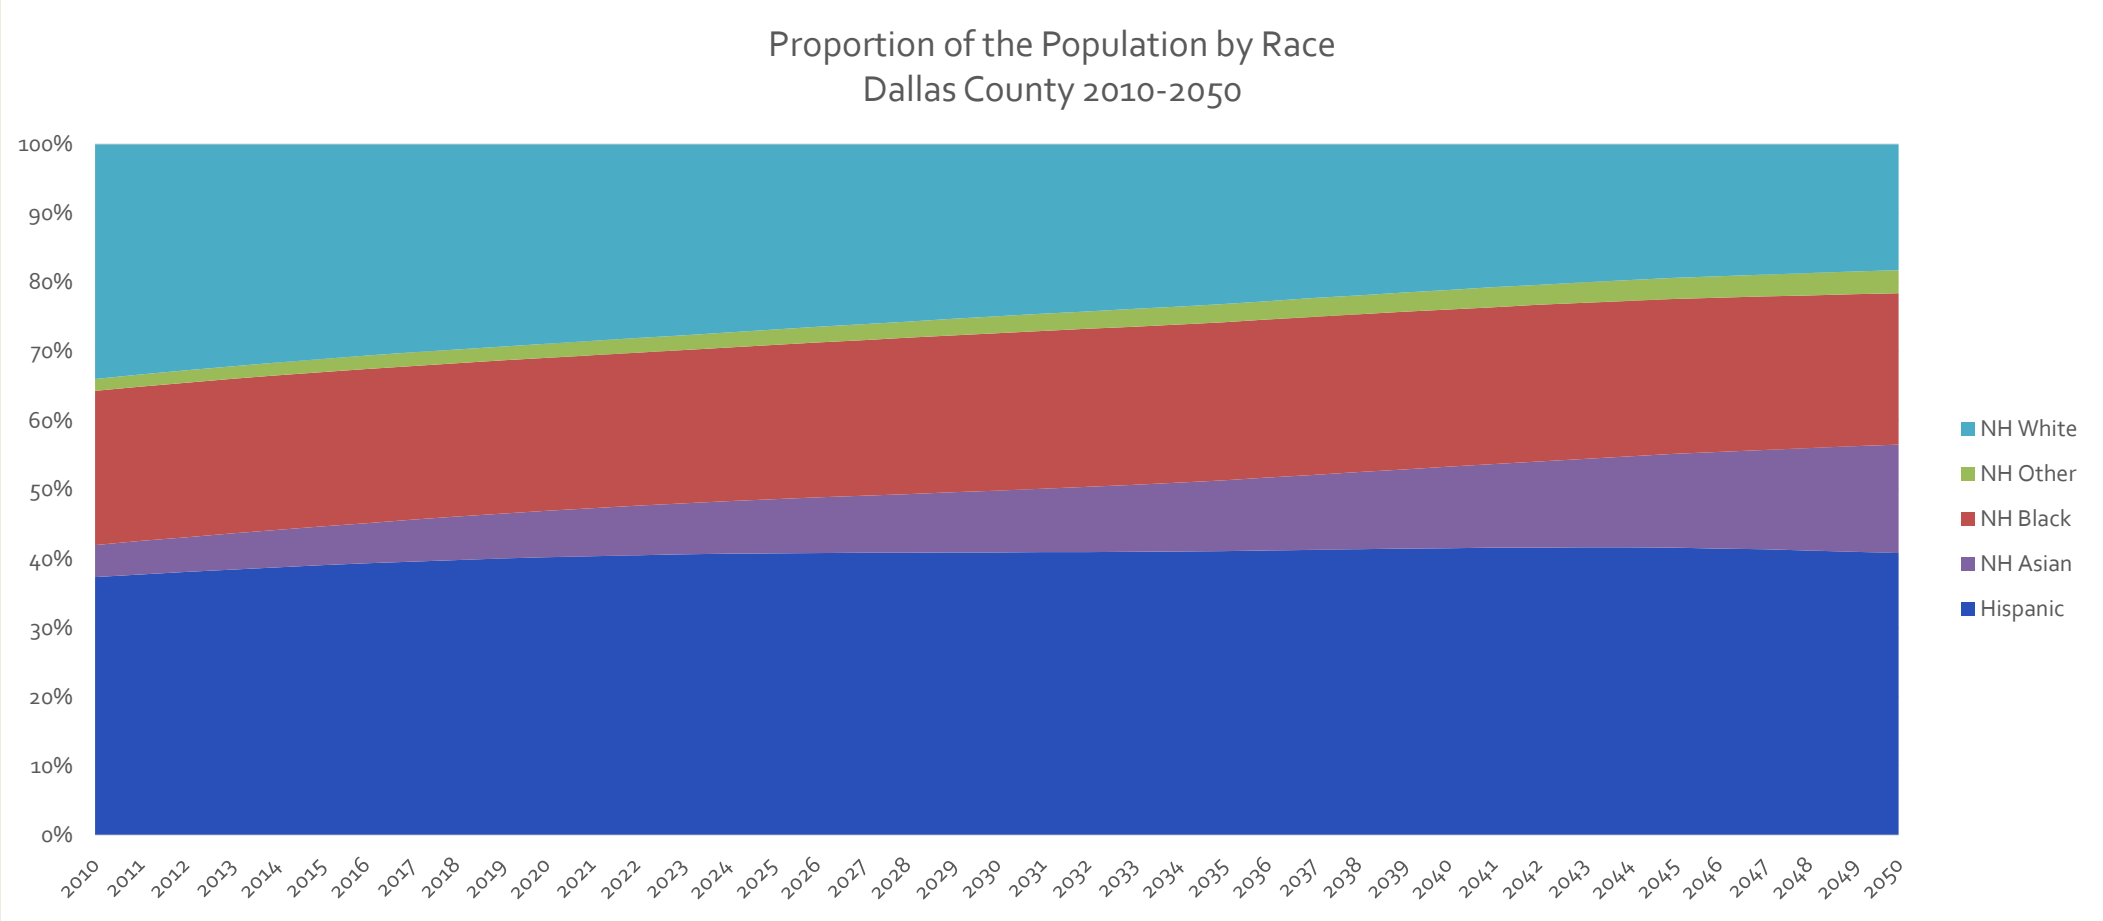

Non-Hispanic Whites Are the Only Population Group in Decline

Data Source: Texas State Demographer Population Projections, 2018

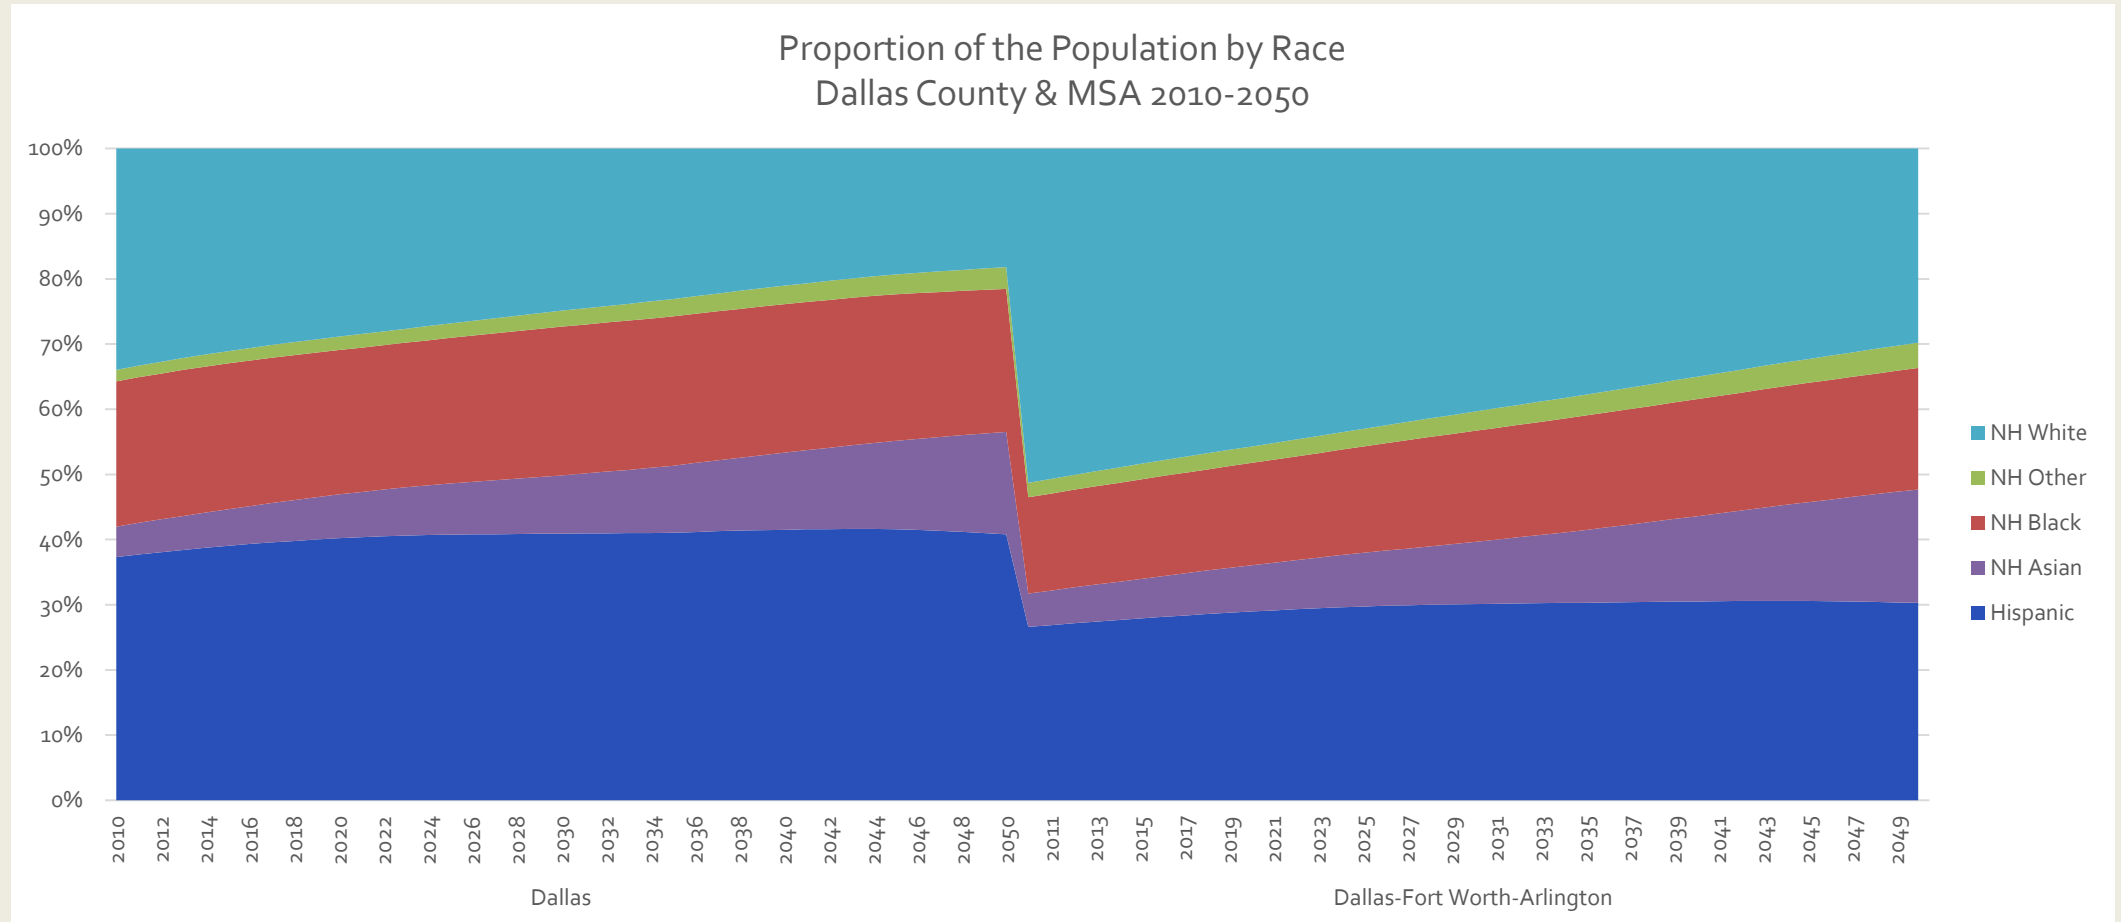

By 2050, Non-Hispanic Whites Will Represent Roughly 20 Pct. Of Dallas County Residents

Data Source: Texas State Demographer Population Projections, 2018

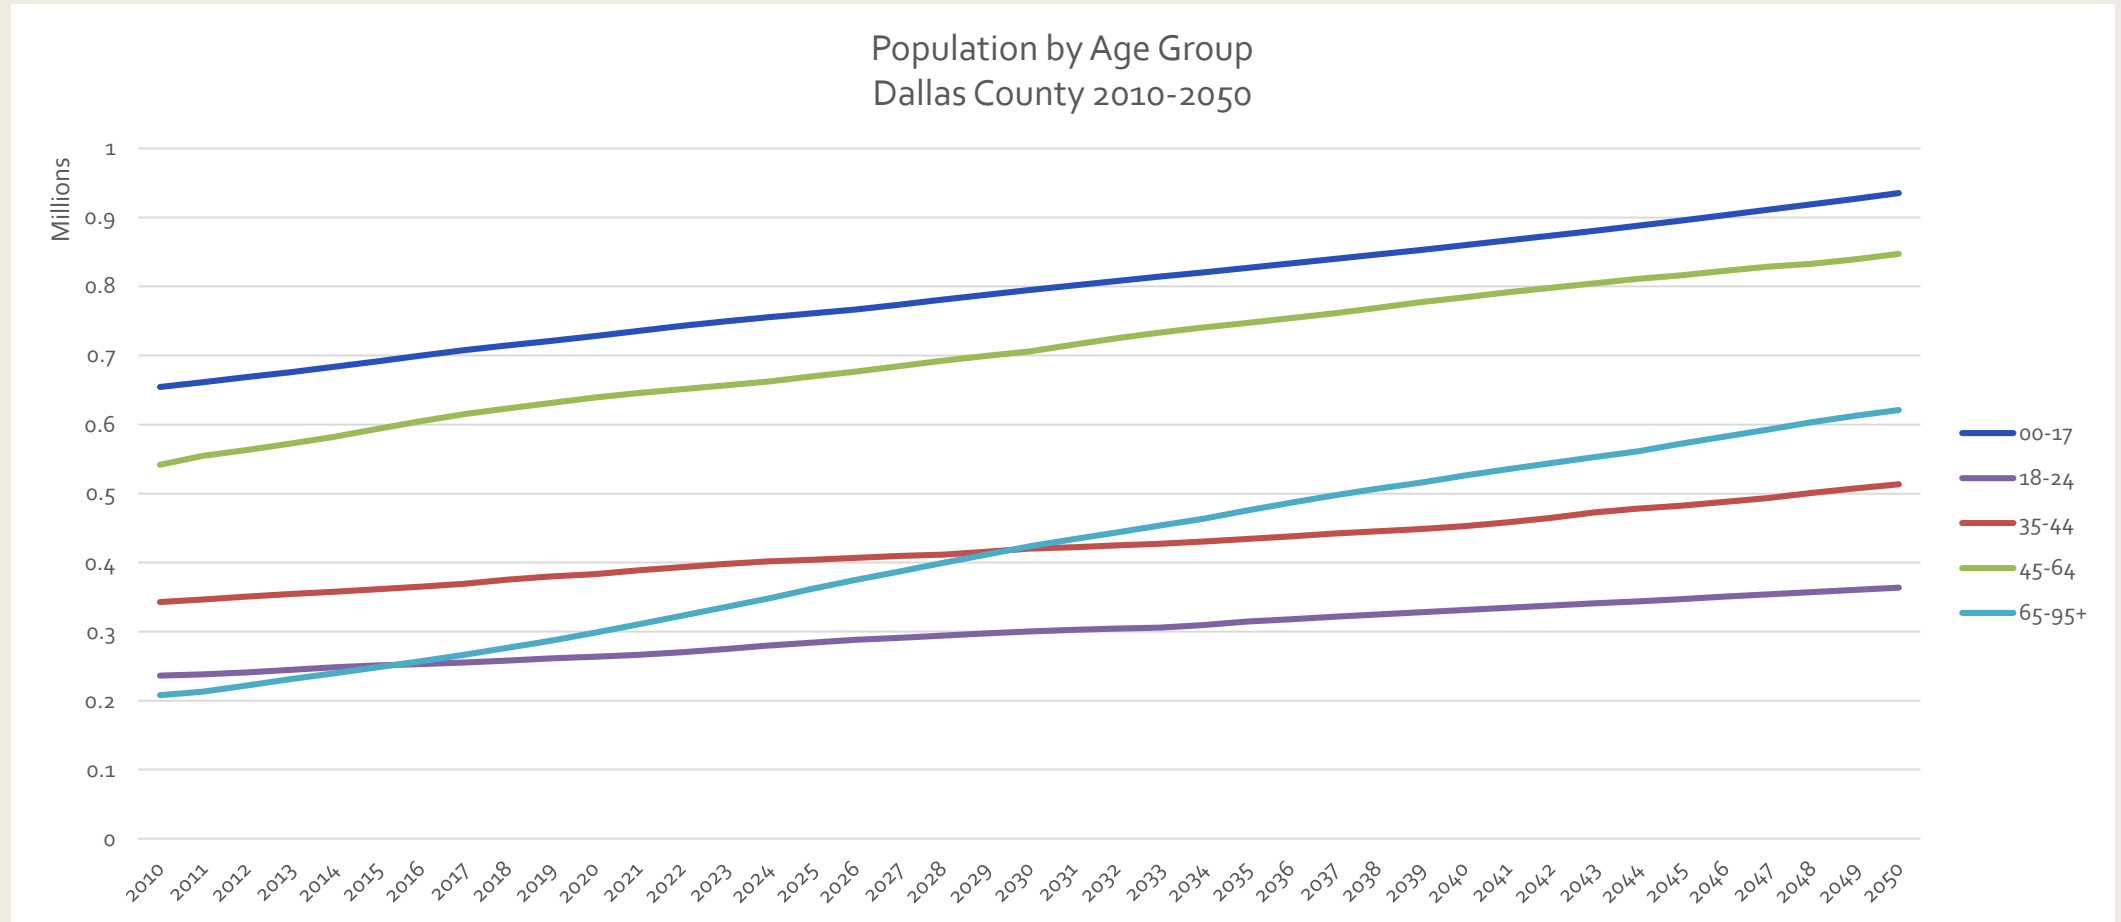

A Similar, Though Less Pronounced, Pattern in the MSA

Data Source: Texas State Demographer Population Projections, 2018

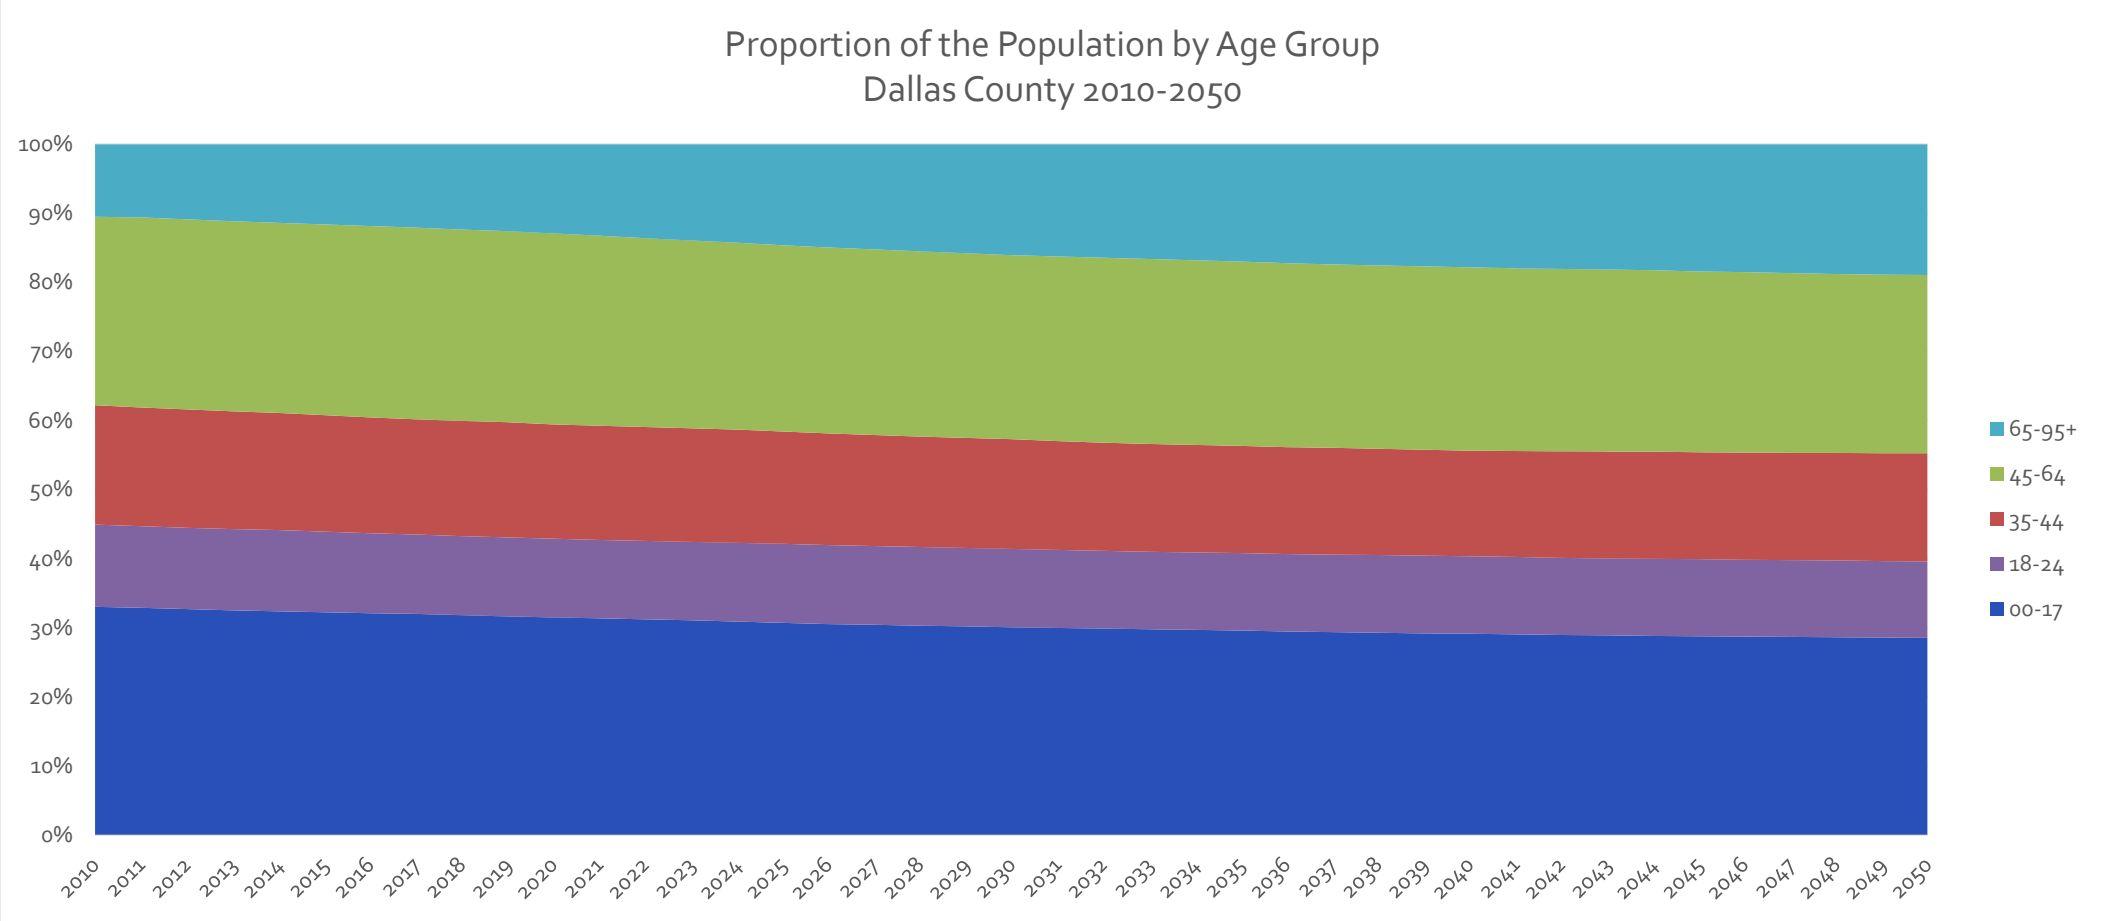

By 2029, the Largest Population Groups Will Be Children, the Elderly, and the Elders-to-Be

Data Source: Texas State Demographer Population Projections, 2018

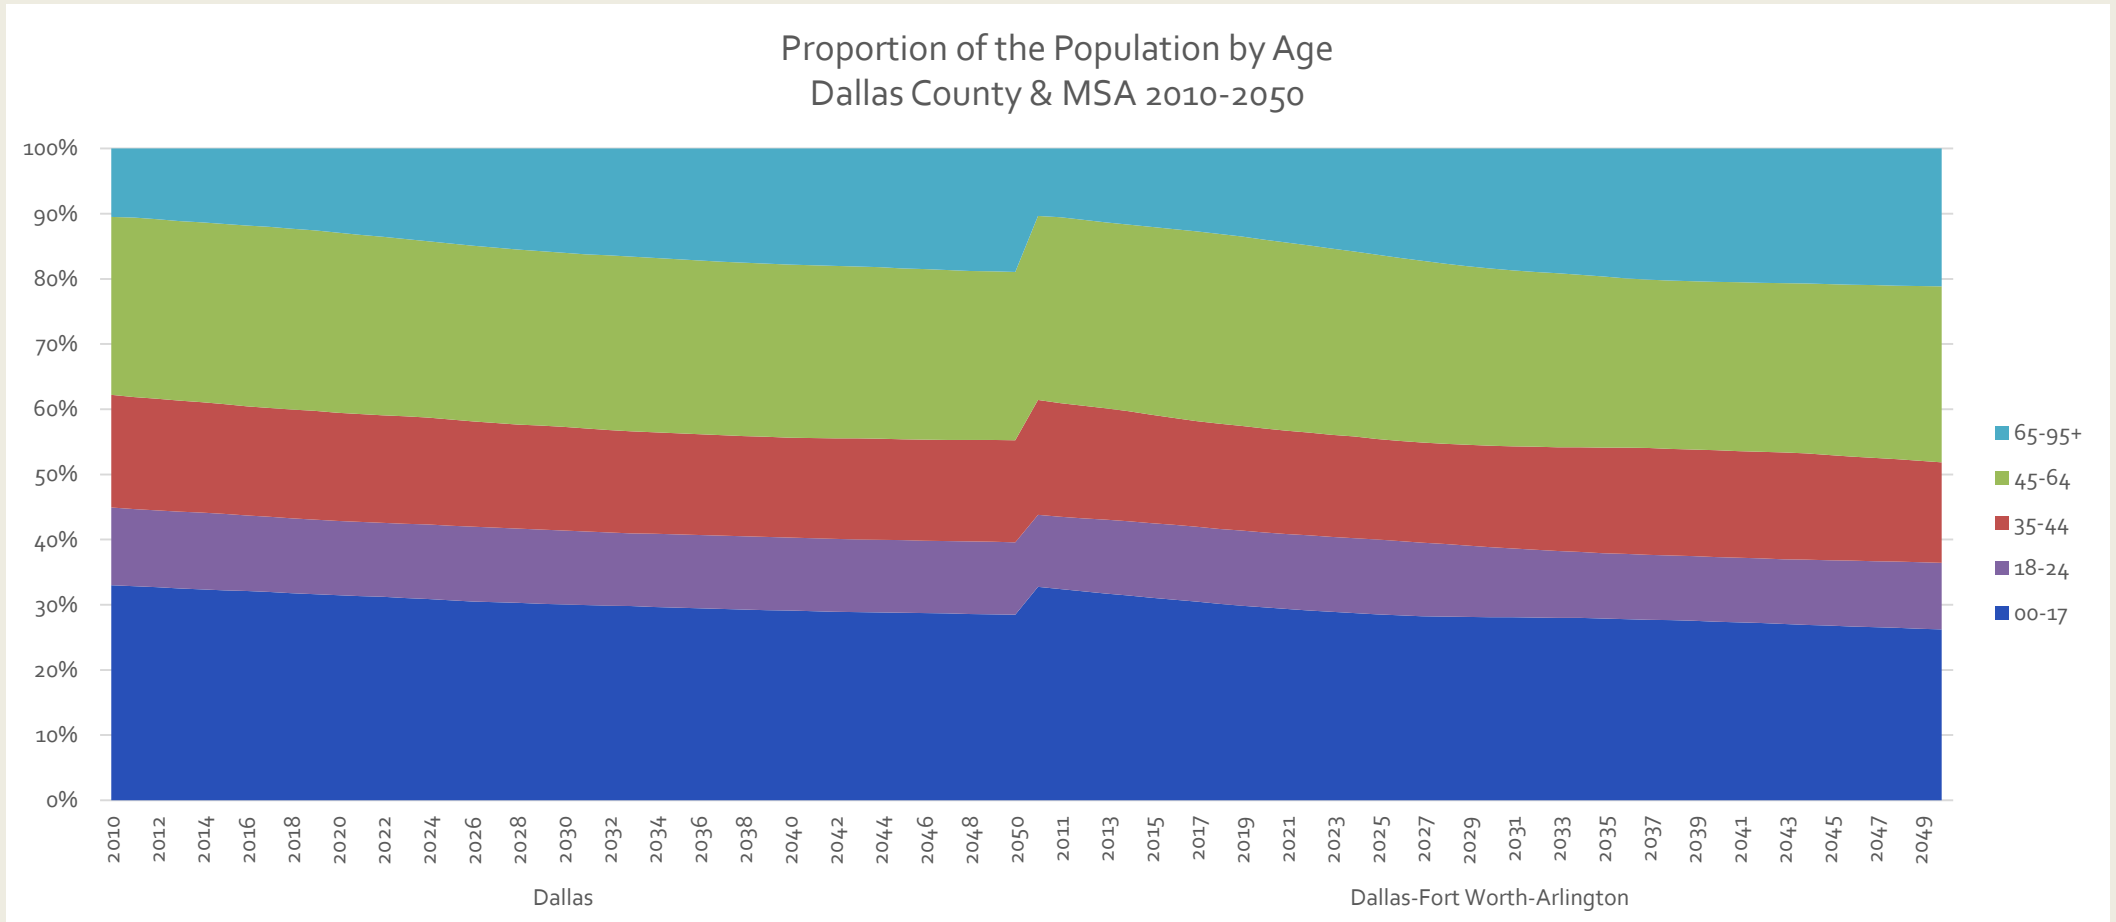

Relatively Speaking, Dallas County Will Get Older

Data Source: Texas State Demographer Population Projections, 2018

A Nearly Identical Pattern for the MSA

Data Source: Texas State Demographer Population Projections, 2018

Implications

Culture

Governance

Urban Form
and Structure

Education

Workforce
Development

Income and
Poverty

Healthcare

Housing

Transportation
